New Planetary Times

Alchemical Transformation
for individuals, families,
collectives and communities

16th to 22nd February
2025

Every frequency of thoughts, feelings, intentions, actions, reactions of billions of individuals, families, communities, collectives, societies, organizations affect the Universe to which we are part and parcel. We are separate from the Universe without consciousness when we are remote- controlled by our ego, "I".

We are responsible for this planet and the universe for recovering from chaos to creation, thus being part of the Universe. The choice is either we make a planet of pain or a planet of joy, a planet of creativity and construction or a planet of cumulative repetition and destruction.

from a particular position with the Universe? "Flesh gives birth to flesh; spirit gives birth to spirit" was a paradigm of the past 2000 years and now the shift is to: "spirit in flesh gives birth to spiritualized flesh" (to the high vibration of the matter) in the evolution of People and Planet welcoming Satya Yuga.

Humanity must recognize that we are all one and our choice has to align with the spirit of Universe. We are called to know what is changing instead of getting dragged towards a distant unknown, to face with serenity the beauty and the rebirth of the planet and of ourselves and the transformation of our lives.

The Flow: De-mystifying Thoughts, Feelings and Emotions.

The Filters:

Cultures and Morals and their (ir)relevance in the journey

The Power to Create:

Breaking down the process of 'Conscious Manifestation'

Tool Kit: Meditation Techniques, Yoga, Inner Dance, Corporeal Liberation, Silent walks through forest landscapes of Odisha interacting with the tribes and their indigenous wisdom.

The healing power of Indian herbs.

Today, certainly our planet has undergone a change due to adverse interventions of billions of unconscious human beings which cannot continue as on today while Satya yuga is making its way.

Do I ever wonder who I am, what I am and are there others like me?

Am I chained by my memories?

Do I recognize my memories?

Did I forget I am from the Universe and I am the Universe and Am I aware that I can't survive separated from Universe?

Do I recognize what I desire I can manifest

What is Taught?

The Now: Awareness on what is happening in the planet 'now' and how to engage and respond sensitively.

The New Paradigm:

The new code of the Sun-moving from the 3rd to the 5th Dimension.

A study on 'Dimensions' and their role in the process of experiencing life.

The Vessel: An inquiry into the Chakra System.
